Martí Cotonat Cruset

Girona, Spain
marticotonat@gmail.com • LinkedIn, GitHub

Software developer with 2.5 years of experience across Accenture and Asartec, specialised in C#, VB.NET and SQL on the .NET platform. Maintains desktop (Windows Forms), API and .NET MAUI applications for occupational risk-prevention software, and cut the load time of a key production web app from 10–20 seconds to under one second. Heavy user of Claude Code to automate day-to-day development. Studying Computer Engineering at UOC alongside full-time work.

Core Competencies

- **Languages**: C#, VB.NET, SQL (strong); Python, TypeScript/JavaScript, PHP, Java (intermediate); Kotlin (basic).
- **Frameworks**: .NET, Windows Forms (strong); .NET MAUI, Angular, Node.js (intermediate).
- **Databases**: Oracle, SQL Server (strong); MongoDB (intermediate).
- **AI-assisted development**: Claude Code – code generation, code review, documentation, custom skills, hooks and agents.
- **Tools**: Git, Visual Studio, Visual Studio Code, SQL Developer, Firebase, Unity.

Professional Experience

Asartec — **Girona, Spain**
Software Developer — *May 2025–Present*

- Develop and maintain a Windows Forms occupational risk-prevention application in VB.NET and C# for universities and prevention services.
- Work on the C# API, web apps and a .NET MAUI mobile app.
- Cut the load time of the main "responsables" web app from 10–20 s to under 1 s by diagnosing, with Claude Code, logs written inside the app folder that triggered partial restarts.
- Built asartec.net single-handedly: a custom helpdesk that grew from a personal task manager into the company-wide ticketing system (Node.js, rebuilt in PHP).
- Automated much of the development workflow with Claude Code (code generation, review, documentation, custom skills and agents); support the other junior developer in a team of three.

Accenture — **Girona, Spain**
Software Developer — *Jan 2025–Apr 2025*

- Full-stack web development with Angular on the front end and Node.js, Java and PHP on the back end and API.
- Agile team: sprint planning and execution.

Accenture — **Girona, Spain**
Software Developer Intern — *Nov 2023–Jul 2024*

- Front-end (Angular) and back-end (Node.js) feature development.
- Systems integration and service-to-service communication.

Education

Universitat Oberta de Catalunya (UOC) — **Online**
BSc in Computer Engineering (part-time) — *2024–Present*
Studied alongside full-time work.

- **Institut Montilivi** — **Girona, Spain**
  Higher Technician in Multiplatform Application Development (DAM) — *2022–2024*
  Final grade 8.20/10; final project 10/10. OOP, databases, data access, interface development, multimedia and mobile programming (C#, Kotlin, Python, SQL, Java).

Languages

- Catalan (native), Spanish (native), English (B2).
